Barnfield Way, Altham, Accrington  
BB5 5YT

”

**we are very proud to  
have achieved carbon  
reductions of 45%**

## Introduction

At Lynch Truck Services we installed 50.63 kW of solar, totaling to approximately 125 panels on their Altham premises.

## Lynch Statement

"From beginning to end the team at The Energy Guys have been polite, professional and helpful. The install was exceptionally smooth and didn't affect our day to day operations at all. I would definitely recommend to other businesses to use"- Lynch Truck Services Health and Safety Director- Mark Spencer

## Key Figures

- ✓ 45% energy consumption reduction
- ✓ 45% carbon emission reduction
- ✓ 3,522 kW of energy produced per month

## What are the benefits of this system?

This system will mean that their monthly spending on energy bills will fall by a massive 45% due to them using the energy that they have produced on-site. This system will also reduce their carbon emissions by over 15 tonnes. That's 2 T-Rexs!
